

# REDEMPTION AT YOUR FINGER TIPS

The Twelve Strike Redemption program is just what is needed to increase popular games among today's young, young at heart and open play bowlers. Statistics have shown that redemption will increase key areas of your business, and most importantly, your party business. Parents and kids will flock to your lanes for the opportunity to win valuable prizes from your redemption area.

Twelve Strikes' on lane redemption system allows you to set the value for the tickets, and then evaluate the payout percentages versus the revenue you bring in. The bottom line - investing in Twelve Strike puts you in total control.
